Address: 2427 83rd Street 3F, Brooklyn, NY 11214

EXPERIENCE

Palmco Energy, Brooklyn, NY — Web Application Developer

Sep 2014 - Mar 2019

SPA – Company's Web Application

- Implemented application business logic in C# with MVC design pattern.
- Designed APIs for internal staff and vendors to submit data into the system.
- Used AngularJS, JavaScript to develop controllers, and directives.
- Designed and improved UI layout with HTML, Bootstrap, and CSS.
- Designed stored procedures and database views using SSMS and T-SQL.
- Created reports using SSRS.
- Collaborated with different teams in the company to implement their workflow into the system.
- Used version control systems such as GIT and Bitbucket to manage source code and JIRA for issue tracking and project management.
- Maintain and support the company's custom CRM/ERP web application.

Code Fusion Inc, New York, NY — Software Engineer

Sep 2016 - June 2017

- Work with and met with clients on a weekly basis to document and gather project requirements.
- Design and integrated modules into the client's existing system.
- Pair programmed with other developers to exchange ideas.
- Designed and created E-Commerce websites using WordPress/Drupal/Joomla CMS.
